Professional Summary

Dynamic and motivated professional with a strong focus on DevOps, Cloud Computing, QA, Selenium testing, Python, and Java. Proficient in leveraging AWS services for efficient deployment and management. Experienced in creating robust testing frameworks using Selenium. Excels in collaborating with teams to drive innovation and deliver high-quality solutions. Committed to continuous learning and growth in networking and security fundamentals. Ready to contribute expertise to drive success in dynamic environments.

Internship

2022/12 – 2023/09

Remote

Tech lead (Student) Intern

JALA Academy

- Spearheaded the enhancement of QA and DevOps processes, showcasing proficiency in Python and Core Java
- Mentored junior developers, fostering a culture of continuous learning and skill improvement.
- Monitored and documented the learning progress of individuals, providing consistent motivation for accelerated and enjoyable learning experiences
- Contributed to a positive team environment by collaborating with fellow interns on group projects and presentations.

2019/05 – 2019/06

Pune, India

Python Developer Intern

Sagveek Technologies

- Successfully Completed a Python internship program, earning a valid certification.
- Maintained regular communication with the instructor, providing updates on assignment allocation and daily tasks.
- Increased project efficiency by consistently meeting deadlines and prioritizing tasks effectively.
- Demonstrated proficiency in Python programming, contributing to developing and improving various projects and tasks assigned during the internship.

Education

2017/08 – 2020/06

Pune, India

Diploma | Computer Science

AISSMS Polytechnic

- Final Grade: 85.31%
- Completed Coursework: OOPS Concept, JAVA Programming, Software Engineering, Operating System, Python Programming, Entrepreneurship Development

2020/08 – 2023/07

Pune, India

BTech | Cloud Technology and Information Security

Ajeenkya D Y Patil university

- 8.81 GPA/CGPA
- Completed Coursework: LINUX Operating System, Data Structure and Algorithm, Cryptography, Network Security, Information Security, Ethical Hacking Virtualization, Cloud Computing, Cloud Security.

Skills

DevOps Tools

Jenkins, Docker, Kubernetes, Ansible, Terraform, Prometheus, grafana

Version Control

Git, GitHub, GitHub Desktop

Amazon AWS Services

EC2, ECR, IAM, AWS Lambda, VPC, RDS, Route 53, EKS, Amazon CloudFront, AWS CloudWatch

Programming Languages

Core Java, Python, SQL, Selenium, Rest Assured

OS

Amazon Linux, RedHat Linux, Ubuntu, Windows 10 | 11

Cloud Platform

Microsoft Azure, Google Cloud Platform

Certificates

- Certified Postman API Fundamentals Student Expert, Postman - June-2023 [🔗](#)
- Brideglabz Bootcamp for JAVA Training Training - Dec-2023 [🔗](#)
- Tech Lead (Student) Internship, JALA Academy - Dec-2022 to Sept-2023 [🔗](#)
- Cloud Computing with AWS Training - Jan-2024 to Feb-2024 [🔗](#)

Projects

2023/01 – 2023/05

SAARUSH | The digital voice assistance [🔗](#)

Transforming Digital Voice Assistance with PyAudio Integration

Responsibilities:

- Architected and evolved SAARUSH, an industry-leading AI voice recognition solution,
- Implemented PyAudio library integration for real-time audio processing and speech recognition, resulting in a 40% reduction in manual transcription time and enabling faster response to customer queries.
- I have implemented custom voice recognition algorithms to improve accuracy and responsiveness.
- Integrated Pyttsx3 for text-to-speech conversion to provide natural-sounding speech output.
- Designed and deployed custom functions to enable customizable voice commands and interactions.
- I collaborated with the team to optimize system performance and enhance user experience.

Tools and Technologies Used: Python, PyAudio, Pyttsx3, Speech Recognition and Face Recognition Algorithms, Custom Voice Commands, and Real-time Audio Processing.
